S.T.C. HIGH SCHOOL PUPILS GRADUATE

COMMENCEMENT EXERCISES AT COLLEGE THIS MORNING.

DR. COX GIVES ADDRESS

President Richardson Presents Letters to Basket Ball Squads at Close of Exercises.

Dr. Gilbert S. Cox of the First Methodist church, gave the class address this morning at the State Teachers College for the graduates of the secondary division or High School department of the College.

Dr. Cox spoke upon the subject "Provincialism," elaborating upon the topic through three divisions, national, social and religious provincialism and the relation of education in correcting a provincialism which would hamper progress in any of these lines. Dr. Cox spoke of the provincialism of language, which while not harmful, indicated a lack of comingling with other peoples and the national provincialism of a race, thinking by right of descendancy and geographical position, their country constituted the world and that the latter exaggerated, forms the basis of war and is in direct contrast to the Americanism and nationalism which has been the glory of the American people in making their country one free from prejudice.

To correct any tendency in individual or a nation toward this provincialism, the individual, in the language of Dr. Cox, should recognize the aim and ideals of every individual toward the best and should fill their own place in the highest manner, making their own contribution to the world the best in every phase of living.

The class was the first in this department to be graduated from the college. The program included numbers by the school orchestra, piano solos by Miss Halcyon Hooker and Marjorie Dougherty, a solo by Arthur Elmore, the presentation of the class to the President by Dean G. H. Colbert and the awarding of diplomas by President Richardson. Sixteen students finished the course and were granted diplomas.

Following the exercises, President Richardson presented the letters to the girls and boys basket ball squads. Those obtaining the merits were Jennie Blacklock, Ocie Coler, Florence Elmore, Mamie Elmore, Lula Elmer, Abbie Murray, Fern Scarlet, Way Hulet, Alice Peery, Annette Simmons, Helen Dean, Myrtle Argo, Velma Appleby, Bessie Danner, Gladys Bookman, Eula Pearce, Earl Richards, Jay Puckett, Clyde Sawyers, Clarence King, Howard Stuart, Charles Wells, Jasper Adams, and Loren Egley.

KILLED DROVE OF SNAKES ON BURLINGTON JCT. ROAD

Eugene Humphrey Locates Nest of Thirty Reptiles Recently and Massacres the Lot.

The best snake story of the year is told by Jack Friend, who guarantees it truthfulness. His brother-in-law, Eugene Humphrey, of near Dawson and the latter's farm hand are the principals in the story.

The two men were driving along the road recently, and when near the Dawson cemetery saw a large black snake sunning himself on a hollow log near the roadside. They stopped to kill him and scared up four others, which they also killed.

A few days later they were driving over the same road, when one of them noticed the head of a blacksnake protruding from a cavity in the same fallen tree trunk. They had an axe with them, and decided to kill this reptile also. They accordingly began chopping on the old tree, and when they had split it open found that the cavity was filled with snakes, their bodies wound around about each other, and tied into countless knots.

The men immediately began a massacre, and when the job was finished found that they had killed twenty-five blacksnakes and one blue racer.

This is probably the largest "snake killing" that has ever taken place in Nodaway county—for a great many years, at least.—Burlington Junction Post.

Terrible Tortures From Itching Skin Diseases

No Sure Relief Until the Cause Is Removed.

When the blood becomes infested with millions of tiny disease germs that attack the skin, then the fiery irritation and intense itching will remain with you until these germs are removed from the blood.

Genuine relief therefore, can only be expected from a treatment that goes right to the seat of the trouble, and strikes at its cause. Such a remedy is S. S. S., the reliable old blood purifier that kills the germs of disease, and sends a new supply of rich red blood coursing through the veins.

S. S. S. has been used successfully in some of the worst cases of eczema and other skin disorders.
